

Adrenochrome, The Drug Of The Elite. They Obtain It By Torturing Children

Adrenochrome, a chemical known by “modern science” since at least the 1930s, it is a chemical compound with the molecular formula $C_9H_9NO_3$.

Adrenochrome is produced by the oxidation of adrenaline (epinephrine) in mammals. The chemical concentrates in the body during times of extreme fear and terror.

Over the years many testimonies of people who have survived “illuminati” sacrificial rituals, high ranking government officials and people who have witnessed their kids being subjected to high level pedophilia and satanism have all came forward to share their experiences.

Most of them have shared the same story over and over again, they say the “cabal” or the “illuminati”, these high-ranked politicians,

bankers., businessmen...they all take part in satanist rituals in which they subject a person or even many individuals to unbelievable levels of torture and trauma, in most cases they prefer torturing children as they consider their blood to be more “pure” and to produce high -potency Adrenochrome.

Pictured above: the “illuminati” card game published in 1995, who “predicted” the 9/11 terror attack, showed a card with “Immortality serum” as the tittle and we can see a blood bag and a syringe full of blood.

That’s why these people are so involved in pedophile and child sex-trafficking, this not the only part of their rituals, what you have to realize is that these “people”, these elite satanists, they not only torture and kill children, no, they also do offerings of organs and blood, they rape the children, they chop their heads off... but in most cases they seem to harvest the blood of the person while the person is still alive to they can keep on torturing the person until the person finally dies or they end up killing the subject. Every sick and twisted perversions you can think of, these people are doing them 100x worse.

These monsters worship satan they want to please him and they are addicted to this drug who’s naturally occurring in the blood of tortured human beings. It’s been said that once they get to taste Adrenochrome charged blood they become so addicted that if they go for a while without drinking adrenalized blood their withdrawal symptoms are far worse than meth withdrawal. (remember the stories about vampires becoming weak/disintegrating when lacking fresh blood ?)

You can see how these people will do anything to keep doing their sickening rituals, that’s why they go after our precious children.

Thousands if not millions of unreported children go missing each year, they're trafficked at the borders, most of them come from third world countries where it's easier to kidnap children.

That's why most politicians are for open borders.

Not only are these monsters addicted to adrenalized blood but let's be real, to be able you kill and torture other human beings you have to be devoid of guilt, empathy.

We call the people who exhibit these kinds of behaviors psychopaths, That's what these people are, PSYCHOPATHS.

The only way these people who are devoid of any emotions, are getting somewhat of a trill is by torturing, killing and drinking adrenalized blood.

Drinking the blood of tortured human beings & animals is not new, ancient Egyptians used to do blood sacrifices, the Aztec did too, Vlad the Impaler also drank blood and did all kinds of satanic rituals, in Greece

it was banned but it went underground, to this day the cabal is still practicing these horrible rituals behind closed doors.

Prince Charles is a direct descendent of Vlad the Impaler, famously known as Dracula, who was at the origin of the Vampire folklore.

Like our modern days “illuminati” Vlad Dracula drank the blood of tortured human beings.

Nothing new under the sun, these people we call the illuminati have learned these practices and rituals directly from ancient Babylonian and Egyptian’s occult teachings.

That’s why they created secret societies , to keep these teachings secret, and to teach this occult knowledge that ancient civilizations had about satanism only to people who are part of their secret societies.

The people in these secret societies have to go through a lot of satanic ceremonies to prove that they can be trusted.

If a person can kill a child without any guilt to prove that they can be trusted by the “brotherhood”, then they can climb in ranks to learn more & more evil and sick teachings.

That’s why Freemason have ranks “degrees”, the highest being 33rd degree.

But of course there’s a lot of other secret societies that we don’t know of, the most known are of course freemasons, skull & bones.

It doesn’t really matter because all these secret societies have the same core teachings which is satanism, they just have different names but the content stays the same.
